Seungjoo Kim

Full Stack Developer

in [Seungjoo Kim](#) ✉ sjskybone@gmail.com 📍 Orange County, CA ⌨ [SeungjooKimSJ](#) 📱 714-393-5552

TECHNICAL SKILLS

- **Strong:** JavaScript (ES5/ES6), HTML5, CSS3, Flexbox, React.js, Node.js, Express.js
- **Experienced:** MySQL, PostgreSQL, jQuery, Bootstrap 4, HTTPie, APIs, AJAX, OOP, Wireframing
- **Tools:** Git, GitHub, Cmder, VS Code, Slack, Figma, JSON, npm, Webpack, Chrome Dev Tools

APPLICATIONS DEVELOPED

Clever Consumption [GitHub](#) | Live
- Created a full-stack app using JavaScript (ES5) and React.js that allows users to create a transaction and store that history
- Essential to fill in the details of a transaction because the purpose of the app is to keep records and check for smarter consumption
- Built data table that can store the saved data using SQL Server
- Able to organize stored transaction history by daily, weekly, and monthly using the fetch call from the server API
- Show user's category expense history accurately through the chart.js pie chart

Bucket Places [GitHub](#) | Live
- Designed and planned through Figma's wireframing tools to reduce the time to create and modify features before starting code
- Called data to display what users searched by using the Ajax API and rendered a DOM Tree page with the searched result data
- Saved the selected image in the localStorage and that is listed on the album page
- Allowed user to update or delete the data from the album page using JavaScript

Code Journal [GitHub](#) | Live
- Created an app using HTML, CSS, and JavaScript (ES5) that allows users to save and delete their entries
- Stored and discarded the data information that users submit through a form using JSON and localStorage
- Enhanced user experience for both mobile and desktop-sized screen users by using the media queries

PROFESSIONAL EXPERIENCE

Restaurants Head Server | *ChaiLan*   Nov 2018 - Jan 2021
- Facilitated communication between employees to increase teamwork and efficiency
- Organized server's own roles to more effectively finished work in a busy work environment and reduced number of mistakes
- Raised to more than doubled sales through excellent work ethics and customer response with quality service to the customer
- Brought the satisfied result of both the customer and the restaurant with the quickest and most appropriate judging when the customer complained

Assistant Restaurant Manager | *Lunar*   Mar 2013 - Oct 2018
